

ICRM Announces Year-Round Testing for Parts 1-5 and Specialty Designations

The ICRM is pleased to announce year round-testing for Parts 1-5 and Post Certification Specialty Designation exams. Based on Pearson VUE test site scheduling availability, candidates for the Certified Records Analyst (CRA), Certified Records Manager (CRM), CRM/Federal Specialist (FED), and CRM and CRA/Nuclear Specialist (NS) designations will be able to schedule their exams for days that are convenient, not constrained to only four defined exam cycles per year.

If the candidate does not pass an exam, he/she will be able to reschedule a re-take in as little as 48 hours (based on Pearson VUE availability). Upon passing Parts 2-4, candidates will have the opportunity to immediately claim CRA status and become a member of the ICRM.

Part 6 exams will continue to be offered during a 2 week test cycle four times per year in February, May, August, and November.

John Krysa, CRM/FED
ICRM President
